Dè Stories — Website Proposal

Oct 13, 2026 · @Teena Anie Emmanuel

Summary

We propose to turn the prototype you reviewed at destoriesdecor.vercel.app into your live online store and owner admin for **₹55,000**. It goes live **5–6 weeks** after we receive your content, with **60 days of free support** after launch.

What	Online store with WhatsApp ordering, Design Studio pages, and an owner admin for products, stock, orders, customers and sales reports
Price	₹55,000 one-time (introductory; standard price ₹85,000)
Timeline	5–6 weeks from receiving your content
Support	60 days free, then an optional care plan from ₹1,000/month
Running costs	About ₹1,000/year for the domain to start; hosting and database start on free plans

What you get

Everything in the prototype, running on a real database, so every customer sees the same products, prices and stock, and every order is saved.

Area	Included
Customer site	Home page, shop with category, room, price and collection filters, search, product pages with size picker and “More details”, cart, WhatsApp checkout
Design Studio	Services, how a project runs, portfolio gallery, “Book a consultation” form
Visit us	Address, hours, WhatsApp number and Google Maps directions

Area	Included
Owner admin	Email sign-in for invited staff; dashboard of sales, best sellers, repeat customers and restock alerts
Managing the shop	Add and edit products, sizes, prices and photos; add and reorder categories; stock that goes down when you confirm an order
Orders and customers	Order list with status (Pending, Confirmed, Shipped, Delivered, Cancelled); customer list with repeat buyers; CSV export
Catalog setup	All 106 products from your catalog loaded with photos, sizes and prices
Launch	Your domain connected, basic Google search setup, testing on phones and computers
Handover	A 1-hour training session, a short how-to guide, and all logins handed to you

Investment

The work takes about 115 hours, which at our standard rate of ₹750/hour comes to ₹85,000. As one of our first clients, you pay **₹55,000**, about 35% less.

Work	Hours
Database, sign-in and security setup	15
Loading and cleaning up the 106-product catalog	8
Customer site on live data	25
Admin: products, categories, stock, orders	35
Customers and sales dashboard	15
Testing, launch and training	15
Total	**115**

The prototype you have already reviewed is part of this work, so a good share of the design is done.

In return for the introductory price, we ask for:

- a short testimonial after launch
- permission to show the project in our portfolio
- a small “Website by …” credit in the site footer

Optional add-ons

These can be added now or any time after launch.

Add-on	Price	Extra time
Online payments by UPI and card (Razorpay), alongside WhatsApp ordering	₹12,000	1 week
Product descriptions written for all 106 pieces	₹6,000	None (done in parallel)
Interior design portfolio pages built from your project photos	₹5,000	None (done in parallel)
Automatic WhatsApp order confirmations (WhatsApp Business API)	Quoted on request	—

Timeline

The site goes live in week 6. The clock starts once we receive the advance and your content, because waiting on content is the most common reason small projects slip.

1. **Week 0 — Kick-off.** Sign-off, advance payment, and your content (list below).
2. **Week 1 — Foundations.** Database, admin sign-in, and the full catalog loaded.
3. **Weeks 2–3 — Shop and catalog admin.** Customer site on live data; product, category and stock management.
4. **Week 4 — Orders and reports.** Orders, customers, sales dashboard and studio enquiries.
5. **Week 5 — Your review.** You test everything on a private test site; we make one round of changes and run the training session.
6. **Week 6 — Launch.** The site goes live on your domain.

What we need from you before week 1:

- [ ] Corrected names for the duplicate and mislabelled products (we will send the list)
- [ ] Current stock count for each product and size
- [ ] Material, weight and a one-line description for each product, if you have them

- [ ] Store hours and your Google Maps link
- [ ] Interior design services you offer, project photos and any client testimonials
- [ ] Your domain name (or we help you buy one) and the email addresses that need admin access
- [ ] Your delivery area, delivery charges and return policy

Payment schedule

You pay in three parts, each tied to something you can see.

Stage	Share	Amount
Advance, to start work	40%	₹22,000
When you approve the test site (week 5)	30%	₹16,500
At go-live (week 6)	30%	₹16,500
Total	**100%**	**₹55,000**

Add-ons are billed with the stage in which they are delivered. Payment by bank transfer or UPI.

Support

For the first **60 days after launch**, we fix any problem with the agreed features at no cost. After that, you can choose a monthly care plan, or simply call on us when you need something.

	Basic care	Standard care
Monthly fee	₹1,000	₹1,500
Yearly, paid upfront (2 months free)	₹10,000	₹15,000
Site monitoring and fixing anything that breaks	Yes	Yes
Weekly backups of products, orders and customers	Yes	Yes
Security and software updates	Yes	Yes
Small changes (banners, text, new category, help adding products)	1 hour a month	2 hours a month

	Basic care	Standard care
Reply time	2 working days	1 working day
Monthly sales summary on WhatsApp	—	Yes

Unused hours don’t carry over. New features beyond these hours get a fixed quote first, or are billed at ₹750/hour. Without a care plan, fixes after the 60 days are billed at the same hourly rate.

Running costs and ownership

These are paid directly to the providers, not to us. All accounts are opened in your name, so you own the domain, the code and all your data.

Item	Cost (approximate)	Notes
Domain name (.in or .com)	₹800–1,200 a year	Yours to keep
Website hosting	₹0 at launch	Free plan that allows business use
Database	₹0 at launch	Moving to the paid plan (about ₹2,100 a month) is advisable once orders are steady, because the free plan pauses after a week without activity
Online payments (only with the Razorpay add-on)	About 2% per online payment	No setup or monthly fee
WhatsApp ordering	₹0	Uses your existing WhatsApp number

Not included

- Product photography, logo or brand redesign
- Social media management and paid ads
- GST invoicing or accounting
- A mobile app
- Features beyond those listed here; we quote them separately before starting

The price includes one round of changes during your review in week 5. Further rounds are billed at ₹750/hour.

Next steps

1. Tell us which add-ons, if any, you would like.
2. We send a short agreement and the advance invoice.
3. You share the content listed under Timeline, and work begins.

This proposal is valid for 30 days.
